

# Power BI Project

## Dataset

Download the covid-19 dataset.

<https://ourworldindata.org/covid-deaths>

## Instructions

1. List out 10 Research Questions
2. Create a report (Microsoft word or PowerPoint) along with your analysis and charts (Power BI file). Your report should show your data modelling. Before and after screenshots and the data model diagram.
3. Create a Multipage Report in Power BI. Ensure proper story flow and page links.
4. Submit both in a zip file (saved with your Full Name)

## Project Duration

1 month
